

GRA SERVSAFE® PROGRAMS

SERVSAFE® ALCOHOL TRAINING PROGRAM OVERVIEW

Prevent your Establishment from Difficult Intoxicating Situations

Implementing the same approach that ServSafe® pioneered for food safety training, National Restaurant Association Solutions is proud to present another new standard in risk management training.

The ServSafe® Alcohol Training Program outlines effective responsible alcohol service practices for your entire establishment. Takes a holistic approach that helps assure everyone has the training they need to serve alcohol responsibly.

Proper alcohol service is a responsibility we all share. The consequences of service violations can be serious. It's vital that your entire staff gets involved to help prevent improper service. The ServSafe® Alcohol Advanced Certification course assists in giving your staff the training they need to help assure every drink served is a safe one.

Visit www.garestaurants.org/Schedule for a complete list of courses and to register online.
