Dear Restaurateur:

I would like to thank you for attending the health inspection code meeting on Monday, April 18. I hope this meeting provided you with a better understanding of the county's process in conducting inspections.

Scoring was a major issue and the department is going to consider some of your suggestions. In regard to challenging the score a restaurant may receive on site, following are means by which you can address this situation with the Environmental Health Specialist (EHS):

1. Request clarification from the EHS who is making the inspection.
2. If not satisfied with the score, the food service operator can seek clarification by contacting the EHS's supervisor (Barney Harmon, Supervisor, Central District 404-730-1307; Tracie Jamison, Supervisor, South District 404-763-5581; Ed Smith, Manager, North District 404-332-1808).
3. If still not satisfied, the next step would be for the food service operator to contact the Deputy Director of Environmental Health (Kevin Jones, 404-730-1337).
4. If still not satisfied, the next step would be for the food service operator to contact the Director of Health Services (Dr. Patrice Harris, 404-730-1302).

Your score will not be posted until your concerns are reviewed.

I wanted you to have this information, immediately, as the County's Department of Health considers your other concerns.

Sincerely,

Robb Pitts
